I have looked over this custom order form and agree with all the specifics stated above. Production start date will begin upon receipt of deposit and color samples and/or artwork. Only then will we feel this is a complete order and release it to production. From this point forward, there are no changes to this order. I also agree to pay the balance and pick up the board within a week of completion.

Notes:

Deck

Bottom

**For us to deliver the best finished product each order must fit the following criteria**

1. All boards must be delivered clean and dust free, with stringers flat, and all sharp edges removed.
2. Any boards that are tinted must not have scratches on the foam or mice bites around the stringers.
3. A clear, easy to read order form must be delivered with the blank showing all color, fins, and logo placements.
4. All EPS blanks must be delivered with a good light weight spackle coat that is sanded smooth.
5. EPS foam is difficult to work with, and any gassing or bubbles are the result of improper spackling or the blank.
6. Any bumps, blemishes, or poor flaws in the shaping will result in blemishes in the glassjob.
7. Nature's Shapes is not responsible for any outgassing or bubbles in an EPS epoxy glassjob.
8. Nature's Shapes is only capable of creating a finished product that is as good as the shaped blank.
9. We do not match colors. We will do our best to get the color as close as possible to the sample.
10. Unless otherwise requested, Nature Shape's uses Futures finboxes.
